Quick Reference Guide

Product	What It Does	Best For
 <p>Collagen Fortify ★</p>	Collagen Fortify supports the natural strength, elasticity, and normal healing process of the skin. It also supports a healthy gut and joints and promotes beautiful hair, glowing skin and stronger nails. Enjoy daily in soups, smoothies or tea.	Supporting skin and gut health
 <p>DailyFlora Essentials ★</p>	Certain foods and medications can throw off the body's natural balance of gut bacteria. This high-potency probiotic supports a balanced gut microbiome and aids digestion and normal bowel function.	Maintaining a healthy balance of gut bacteria
 <p>Omega Thrive ★</p>	Imbalances in essential fats promote inflammation and unhealthy skin. Diets low in oily fish are lacking these vital nutrients. The high-concentration EPA and DHA in Omega Thrive help to support a healthy gut, brain and heart, along with an ideal balance of inflammation. An essential part of any wellness plan.	Essential wellness, supporting healthy levels of inflammation, promoting mental focus and mood
 <p>Vitamin D3-K2 Drops ★</p>	Higher levels of vitamin D3 have been shown to promote a balanced inflammatory response, healthy blood sugar levels, and a strong immune system. Vitamin K2 works with D3 to support healthy bones and arteries. An essential part of any wellness plan.	Essential wellness, supporting healthy blood sugar and a balanced immune response
 <p>Strategic Nutrients ★</p>	Nutrient deficiencies are very common in today's world. This professional-grade multivitamin and mineral blend contains high levels of active key nutrients to protect against deficiencies. Along with a healthy diet, it's an essential part of any wellness plan.	Essential wellness, Replenishing daily nutrients to promote optimal health and healing
 <p>Total Curcumin ★◆</p>	The protein <i>TNF-alpha</i> is a potent driver of inflammation. This patented, highly absorbable form of curcumin has been shown to modulate the production of inflammatory proteins and helps to alleviate occasional pain. A great starter product.	Supporting a healthy balance of inflammation
 <p>Yeast Away ★◆</p>	Candida (yeast) overgrowth in the gut is a common root cause of many chronic health concerns. The gentle enzymes and probiotics in Yeast Away support normal Candida populations for a healthy, balanced gut.	Discouraging yeast overgrowth in the gut, promoting balance after antibiotic use
